SNACK FOOD MACHINE

Spring Roll Wrapper Machine

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3003029	**Snack Food Machine**	**China, exported worldwide**

Description

A spring roll wrapper machine producing the thin pastry sheets used for spring rolls and samosas, formed and cooked on a heated drum or belt.
Sheet thickness and moisture content are what determine whether the wrapper rolls without cracking and seals properly at the edge. Both are set during commissioning and adjusted for the flour being used. The machine produces sheets continuously, cut to size and stacked for packing. Contact us with your required sheet size and daily output for sizing and a quotation.

Technical specification

This spring roll wrapper machine is the newly designed equipment in the kitchen,which also named corn tortilla making machine, pancake making machine, chapati making machine. The mold is made of alloy iron, which is heat-resisting material.
