| EQMH-CHINA-MY3311015 | Fish Processing Equipment | China, exported worldwide |

## Description

Squid Belly Opening Gutting Machine

## Technical specification

The machine is designed for automatic cutting of squid (opening, gutting, separation of tentacles and viscera). The accuracy of the machine does not damage the inside when cutting. At the output, parts of the squid are technologically separated into separate production lines, which makes it possible to organize a highly efficient process of processing. All operations are performed with care.

## Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
