FISH PROCESSING EQUIPMENT

Fish and Meat Slicer

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3311024	**Fish Processing Equipment**	**China, exported worldwide**

Description

Fish and Meat Slicer

Technical specification

Calibration with pre-programming allows you to switch the product processing settings in seconds.
Special programs provide high flexibility of the parting solutions, always taking the right decision before cutting.
The portioning machine can be adjusted using the control panel with a color screen at any time during the cutting process, which improves the results.
The modular ribbon combines an ideal synchronization with an unmatched lifetime. Automatic tape stretch compensation guarantees accuracy over long years when working with the same tape.
The latest laser display technology with a 400 Hz camera provides an incomparable quality.
A laser chamber for flat products such as fillets is designed and manufactured in accordance with the most stringent hygiene standards.
The CIP system (cleaning on site) ensures a quick cleaning of the belts and guide knives.
