

Product Name :
Puff Snack Extruder

Product Code :
EQMH-CHINA-MY3003042

Description :

Puff Snack Extruder

Technical Specification :

Covers technical specs, operation, and customization
Includes measurable metrics (temps, speeds, outputs)
Addresses food safety and allergen control
Structured for quick decision-making

Product Versatility

Produces multi-shape snacks (rings/sticks/balls) through interchangeable extruder dies

Production Capacity

Three models available:

Standard: 150kg/h

Mid-range: 250kg/h

Industrial: 500kg/h

Power Compatibility

Standard China voltage: 380V/50Hz (3-phase) or 220V/50Hz (1-phase)

Customizable to match destination country's electrical standards

Machine Construction

Stainless steel (food-grade 304) contact parts

Alloy steel screws with:
Modular design
Self-cleaning function
Wear-resistant coating
Automated PLC control system
