

Product Name :
Snack Pellet Production Line

Product Code :
EQMH-CHINA-MY3003044

Description :

Snack Pellet Production Line

Technical Specification :

The Snack Pellet Production Line can once finish all process automatically, from raw materials preparation, extrusion, shaping, cutting, drying, flavoring to get finished product. After puffing, the snacks food has the quality of crispy and unique taste, it is one kind most popular leisure food.

Core filled snack machine can do the works of raw materials preparation, extrusion, core filling, shaping, cutting and flavoring at a time, which is high automatic degree. This production line has the advantages of more machines choice, flexible and diverse configurations, wide range of raw material application, numerous in products variety and easy operation. It can make the puffed food, such as core filling snack food, filling biscuit, nutrition breakfast, corn flakes etc. After being puffed, the products are crispy, easy to digest and unique taste.

The screws are made by alloy steel and special craft, the screw life is longer, uses building block system structure, may combine willfully.

The forced lubrication system, by guaranteed equipment transmission longer life.

Visible auto-temperature controlling system, make the temperature-controlling to be more direct-viewing, parameter to be more precise.

Installed Power	80 kw	120 kw	200 kw
Real power	50-80 kw/h	90-120 kw/h	160-200 kw/h
Output	100-150 kg/h	200-300 kg/h	400-500 kg/h
