

**Product Name :**  
Corn Puffs Machine

**Product Code :**  
EQMH-CHINA-MY3003047

**Description :**

Corn Puffs Machine

**Technical Specification :**

Customization: Tailor shapes/flavors for market demands

Efficiency: Continuous processing minimizes labor

Adaptability: Meets global voltage requirements

Capacity: 100-800kg/h

High temperature and high pressure to realize materials' gelatinization and sterilization;

High stability and high capacity;

Energy saving;

Automatic temperature control system with visual temperature appearance function;

Automatic water cooling system;

Flexible screw structure combinations;

Forced gearbox lubrication system;

All motors(engines) with frequency converters speed control system;

High intensity nitriding treatment of screw barrel;

Famous brand engines(motors);

Famous brand frequency converters;

Famous brand electronic elements;

Individual and centralized controlling panel;

High customization flexibility... ..
