

Product Name :
Puff Corn Sticks Production Line

Product Code :
EQMH-CHINA-MY3003054

Description :

Puff Corn Sticks Production Line

Technical Specification :

Corn-feed system: Consists of a hopper, a conveyor, and a vibratory feeder that delivers corn kernels to the extruder.

Extruder: Cooks and shapes the corn into puffed corn on the cob.

Cooling system: Cools down the puffed corn and removes excess moisture.

Coating machine: Adds flavorings and coatings to the puffed corn.

Packaging machine: Packs the finished product into bags or containers.

Puff corn sticks production line Benefits:

High production capacity: Produces 100kg to 150kg of puffed corn on the cob per hour.

Automated operation: Requires minimal human intervention and reduces labor costs.

Versatile: Can produce different flavors and coatings to cater to various market demands.

Consistent quality: Produces uniform and high-quality puffed corn on the cob every time.

Hygienic: Made of food-grade materials and designed for easy cleaning and maintenance.
