

Product Name :
Corn Flakes Production Machine

Product Code :
EQMH-CHINA-MY3003058

Description :

Corn Flakes Production Machine

Technical Specification :

- Fully Automated - From mixing to toasting, minimal manual operation needed
- Premium Quality - Produces uniform, crispy flakes every time
- Food-Grade Materials - 100% stainless steel construction for safety & durability
- Energy Saving - Optimized design reduces production costs
- Customizable Output - 50-1000kg/h capacity to match your needs
- Versatile Production - Adjustable thickness for different flake types
- Easy Maintenance - Simple cleaning and quick mold changes
- Mixing System - Blends corn flour with ingredients uniformly
- Cooking Extruder - Steam-cooks mixture at optimal temperature
- Flaking Machine - Rolls dough into precise thin flakes
- Drying Oven - Removes moisture for crispiness
- Toasting Unit - Roasts flakes for golden color & flavor
- Cooling Conveyor - Cools flakes before packaging
- Control Panel - Automated PLC system for easy operation.
