

Product Name :
Macaroni Pasta Machine

Product Code :
EQMH-CHINA-MY3004017

Technical Specification :

The pasta production line is fully automatic and easy to operate. It uses wheat flour, corn starch, and potato starch as main materials, through mixing, extruding, cutting, and drying to produce various shapes, such as shell, screw, square tube, circular tube, etc.

Input voltage	380V 50Hz
Installed Power	46kw
Power Consumption	30kw
Production Capacity	100-120kg/h
