

ARMY STRETCHER

Military Folding Ambulance Stretcher

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3318003	Army Stretcher	China, exported worldwide

Description

Military Folding Ambulance Stretcher

Technical specification

Casters or metal supports are available for effective bearing of the stretcher's weight.

The maximum bearing weight is up to 159kg.

The medical stretcher can be folded in length and width to a compact size, with collapsible poles to enable fast opening.

It is coated with premium canvas or waterproof leathers that deliver high tensile strength and ease of cleaning. The folding stretcher is constructed from 6063T5 aluminum alloy poles in 28-32mm diameter and 2.0-2.5mm wall thickness for high strength, ease of folding and carrying, and great unfolding stability.
