

Product Name :
Pasta Food Processing Line

Product Code :
EQMH-CHINA-MY3004024

Description :

Pasta Food Processing Line

Technical Specification :

Main features of Professional Macaroni Patsa Spaghetti Making Machine Processing Line adopts the flour ,corn starch , and potato starch as the raw material then forms a kind of leisure food after extruding ,slaking, forming,drying,frying and inflating.

Our company has improved the production line performance by means of the marketing research and our own technology and makes the operator operate the equipment easily and make the craft more perfect.

Professional Macaroni Patsa Spaghetti Making Machine Processing Line is indispensable production food equipment for everyone taking on the food profession.

Professional Macaroni Patsa Spaghetti Making Machine Processing Line adopts the semolina, wheat flour as the raw material.

pasta was mabe to different shapes through the extruder by different molds

Product Name

Professional Macaroni Patsa Spaghetti Making Machine Processing Line

Material
energy

food grade stainless steel 201/304
you can choose electricity or gas or diesel or steam as some machine energy

Standard

the motor most of with Siemens made in china or china top brand and delixi or delta

Function	inverter,also with good brand electricity parts New Condition Macaroni pasta making machine
Type	macaroni pasta making machine
Application	New condition pasta macaroni processing line
Power	if with electricity with normal capacity about 100kw,if with gas or diesel about 50-60kw
