

Product Name :
Pasta Maker Machine

Product Code :
EQMH-CHINA-MY3004026

Description :

Pasta Maker Machine

Technical Specification :

Macaroni pasta processing line, with perfect technology, compact structure, original design and stable performance, is developed on the base of advanced products and requirements in the world market. It realizes high automation, convenient operation, low energy and small floor space, that assures all working procedures from feeding flour to finished products can be accomplished once. The investment for this line is only one tenth of that larger size equipment, especially suitable to small-size or self-owned enterprises. The pasta macaroni product produced by this line is tenacious smooth and transparent.

Installed Power	75kw	100kw	200kw
Power Consumption	40-55kw	50-70kw	100-140kw
Throughput	100-150kg/h	200-250kg/h	150-250kg/h
