

**Product Name :**  
Macaroni Making Machine

**Product Code :**  
EQMH-CHINA-MY3004031

**Description :**

Macaroni Making Machine

**Technical Specification :**

Macaroni Production Line/ Frying pellets/ Pasta Macaroni Spaghetti Snacks Food Processing Machinery  
This macaroni making machine line uses wheat flour as raw material which is extruded and shaped by the single-screw extruder.

It has great flexibility in the changeover of product shape.

The line is stable running and shorter drying with less processing time.

The surface of macaroni making machine is stainless steel

Raw Material is wheat flour

The macaroni making machine Flow Chart

Input Voltage	Installed Capacity	Power Consumption	Output	Length
380v/50Hz	96kw	70kw	80-120kg/h	2600m
380v/50Hz	120kw	100kw	300kg/h	2900m
