

Product Name :
Textured Vegetable Protein Making Equipment

Product Code :
EQMH-CHINA-MY3005021

Description :

Textured Vegetable Protein Making Equipment

Technical Specification :

14 years of food production line manufacturing and export experience.
Provide different product formulations.
One-year warranty, long-term supply of spare parts at discounted prices
Engineers on-site installation and commissioning, training technicians.
Provide professional equipment selection, process flow, plant design advice.

Raw materials : Adopts defatted soya flour as raw materials.

Products : This line can be used to produce soya nuggets, TVP/TSP, soya chunks by adjusting the moulds from extruder; meanwhile it can produce cereal, snacks by adjusting the screws from extruder.

Textured Vegetable Protein Making Equipment Capacity : 100-150kg/h, 240 - 260 kg/h, 500kg/h, 1ton/h

Textured Vegetable Protein Making Equipment Flow chart : Mixing system---Extrusion system----Drying system--Packing system.

Voltage in China: 380V/50Hz for three phase, 220V/50Hz for one phase, we can make it according to customers' Local voltage according to different countries.

Installed Power	68.5 kw	165kw
Power Consumption	43 kw	103kw
Production Capacity	200-250kg/h	300-500kg/h
