

Product Name :
Small Single Screw Extruder Machine

Product Code :
EQMH-CHINA-MY3006014

Description :

Small Single Screw Extruder Machine

Technical Specification :

- Compact & Space-Saving – Ideal for labs and small-scale production.
- High Efficiency – Ensures smooth and consistent material processing.
- Precise Temp Control – Uniform heating for optimal melt quality.
- Easy Operation – User-friendly design with simple controls.
- Low Maintenance – Durable construction for long-term use.
- Versatile – Handles various polymers and composites.
- Cost-Effective – Affordable for startups and research.
- Energy-Saving – Reduces power consumption without compromising output.

Power(kw)	Capacity(kg/h)	Feed power(kw)	Cutting power(kw)
7.5kw	40-50	0.4	0.4
11kw	80-100	0.4	0.4
15kw	120-150	0.4	0.4
18.5kw	180-200	0.4	0.4
22kw	200-240	0.4	0.4
30kw	400-500	1.1	1.5
55kw	500-700	1.1	1.5
