

**Product Name :**  
Macaroni Making Machine Manufacturers

**Product Code :**  
EQMH-CHINA-MY3006018

**Description :**

Macaroni Making Machine Manufacturers

**Technical Specification :**

High-Capacity Production - 100-500kg/h output for commercial demand  
 Multi-Shape Versatility - Produces spaghetti/penne/fusilli with quick-die-change  
 Precision Extrusion - Uniform texture with adjustable screw speed (10-50rpm)  
 Smart Automation - PLC control with recipe memory function  
 Hygienic Design - Full 304 stainless steel construction  
 Energy Saving - 20% lower power consumption vs twin-screw models

Pre-Mixing System - Automatic flour/liquid blender  
 Extrusion Unit - Hardened steel screw (L/D 8:1-12:1)  
 Tempering Chamber - Temperature-controlled (30-80°C)  
 Die Head Assembly - Quick-change mold system  
 Cutting Mechanism - Servo-controlled rotary cutter  
 Drying Module - 3-zone moisture regulation  
 Control System - IoT-enabled HMI interface.

Installed power	100kw
Power consumption	70kw
Production capacity	100kg/h
