Industrial Microwave Drying Machine

**Product Code :**  
EQMH-CHINA-MY3007013

**Description :**

Industrial Microwave Drying Machine

**Technical Specification :**

Microwave sterilization equipment performs non-contact overall heating of chili powder. The drying speed is fast and the product quality is good.

No heat conduction during drying and sterilization process, rapid heating, saving heat conduction loss.

The selective heating of the microwave heats the material evenly, maintains the nutritional content, original color and flavor of wolfberry, and improves product quality.

The microwave sterilization effect is remarkable.

The material only needs to be in a microwave field at about 85 ° C for 3 to 5 minutes to achieve the predetermined sterilization effect.
