

Product Name :
Seafood Microwave Drying Equipment Microwave Fish
Drying And Sterilization Machine

Product Code :
EQMH-CHINA-MY3007015

Description :

Seafood Microwave Drying Equipment Microwave Fish Drying And Sterilization Machine

Technical Specification :

Microwave drying equipment is suitable for application of microwave in scope of dried fruit, dried fruit meat, candied fruit, etc. microwave makes function on low-temperature dry and sterilization, to extend its preservation. Microwave makes function on so both quickly and thoroughly using microwave to kill the pests of rice or rice and rice, grains and eggs (killing rates, including rates and kill the eggs to kill the adult rate 100%), but also on food and environmental pollution, maintaining the original nutrition of rice quality.

For fast food box, lunch and feeding the return temperature, reheating and sterilization preservation.

Product Name	microwave dryer
Device type	Transmission belt
Microwave frequency	2450±50MHz
Power	20-200kw
Size	(10-42)m*1.1m*1.7m
Transmission speed	0-5m/minute
Input voltage	Three-PhaseAC 380V
Cabinet color	Silverh white
The whole material	Industrial grade stainless steel
Microwave leakage limit	?1mW/cm ²
Ambinet teme perature	-10-40°c
