

Product Name :
Meat Ball Forming Machine

Product Code :
EQMH-CHINA-MY3014021

Description :

Meat Ball Forming Machine

Technical Specification :

Meatball Forming Machine Introduction

Meatball forming machine is mainly used to make chicken meatball, fish flesh ball, shrimp ball, beef meatball ,etc.

The whole production line of meatball including meat grinding machine, stuffing mixer, meat chopper, meatball machine, meatball forming tank and meatball frying machine.

Meatball Forming Machine Features

Meatball maker can make meatballs with different flavors.

Little space occupancy, light weight, energy and time saving.

Compact structure, easy operation, large capacity and cost-effective price.

The meatball is of good quality, uniform size, good taste flavor and smooth surface.

The meatball forming machine is of reasonable design and easy operation.

The meatball maker is wholly made stainless steel which reach the international food hygienic standard.

The transmission and control parts all adopt famous components which ensure the long term service time and running accuracy.

Meatball size : 16mm,22mm, 25mm.

Capacity: 300 pcs/ min

Power source: 0.75kw
