

Product Name :
High-speed Sausage Tying Machine

Product Code :
EQMH-CHINA-MY3014025

Description :

High-speed Sausage Tying Machine

Technical Specification :

Sausage Tying Machine Introduction

This machine is used for twisting and clipping final filled sausage.

The semi automatic kinking and clipping machine is ideal for tying in continuous rows.

This machine is electromechanical and the tying speed and length of the sausage can be easily adjusted.

Sausage Tying Machine Features

Stepless adjustable length for filling. Accurate and Even.

Just by drawing the thread, the sausages needn't to be cut when packing.

Labour saving and no contamination.

Reliable performance, low maintaining cost.

Capacity: 50-60pcs/minute

Power source: 1Kw
