

**Product Name :**  
Vacuum Tumbling Machine for Meat

**Product Code :**  
EQMH-CHINA-MY3014026

**Description :**

Vacuum Tumbling Machine for Meat

**Technical Specification :**

Vacuum Tumbling Machine Introduction

Designed for processing pickled meat such as beef, chicken, pork, and seafood products, vacuum tumbler is composed of a rotating drum with steel paddles inside, which slowly moves the meat pieces thus causing a mechanical massaging effect.

The tumbling motion flips seasoning water continuously onto meat products, producing moist, flavorful and good taste products.

Vacuum Tumbling Machine Features

First-class stainless steel material, easy to clean.

Advanced design, computer-controlling system.

Hygienic and tasty products.
