

**Product Name :**  
Peanut and Almond Kernel Chopping Machine

**Product Code :**  
EQMH-CHINA-MY3016018

**Description :**

Peanut and Almond Kernel Chopping Machine

**Technical Specification :**

Peanut & Almond Kernel Chopping Machine Introduction

This machine is designed to cut and chop peanut & almond kernels into small granules. And it is widely used in bakery food processing, such as the biscuit, candy, chocolate, cookie, etc.

Peanut & Almond Kernel Chopping Machine Features

The peanut kernel chopping machine has high output for the high capacity and fast chopping.

It features high automatic level, so it is labor and time saving.

The almond kernel chopping machine is working with no noise, pollution and oil leak.

The chop size can be adjustable as required, and the chopped granule is in good shape with no damage.

This machine is suitable for other nuts as well, which needs switching cutters and the cutter can be specially made requirements.
