

Product Name :
Cereal Corn Flakes Production Line

Product Code :
EQMH-CHINA-MY3003003

Description :

Cereal Corn Flakes Production Line

Technical Specification :

Nutrient Fortification Support – Iron, zinc, vitamins
Smart Manufacturing – IoT-enabled performance tracking

Cereal Corn Flakes Production Line with Extrusion Technology Introduction:

The Cereal Corn Flakes Production Line leverages advanced extrusion technology to manufacture uniform, crispy, and nutrient-rich breakfast cereals at industrial scale. This integrated system combines precision cooking, shaping, drying, and coating to produce high-quality corn flakes while ensuring energy efficiency, food safety compliance (ISO/CE), and customizable formulations.

Installed capacity	150kva	220kva	280kva
Power	120kw	150kw	190kw
Output	120-150kg/h	200-250kg/h	300-400kg/h
