

ARMY BULLETPROOF VEST

Military Bulletproof Vest

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3043001	Army Bulletproof Vest	China, exported worldwide

Description

A military bulletproof vest providing ballistic protection to the torso, built around removable hard or soft armour panels carried in a fabric vest with adjustment at the shoulders and sides.

The question that decides everything about a ballistic vest is the protection level it is certified to, because the difference between a soft vest rated for handgun rounds and a plate carrier rated for rifle rounds is a different product with different weight and cost. Weight is what determines whether it is still being worn at the end of a long patrol. We supply against a stated protection standard rather than a general description. Contact us with the standard your procurement specifies and your quantity.
