

RIOT DRILL MATERIALS

Army Helmet

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3051001	Riot Drill Materials	China, exported worldwide

Description

An army helmet for military, police and security use, providing head protection against fragmentation, blunt impact or both depending on the shell specification.

Helmets divide broadly into ballistic helmets, which are made to stop fragmentation and some projectiles, and impact or riot helmets, which protect against blows and thrown objects. They are not interchangeable and cost very different amounts. Within either type, the suspension and retention system decide whether the helmet stays in position and whether it is comfortable enough to be worn properly for hours. Supplied against a stated standard. Contact us with the protection standard, size distribution and quantity for a quotation.

Technical specification

Having years of knowledge and specialization in this field, we are known for offering a wide array of Army Helmet which is broadly used for superior protection. Manufactured using quality tested raw material and sophisticated technology and are available in various sizes, shapes and designs.
