

ARMY TENTS

Canvas Army Tent

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3052001	Army Tents	China, exported worldwide

Description

A canvas army tent for military accommodation, field headquarters, stores and medical use, in treated canvas with a frame or pole structure for repeated erection and striking.

Canvas remains in service alongside synthetic fabrics for sound reasons. It breathes, which reduces condensation inside in a way coated synthetics do not, it tolerates heat and sun better over a long deployment, and it can be patched and repaired in the field rather than written off. It is heavier and needs drying before storage. Sizes run from small section tents to large stores and mess tents. Contact us with your tent size, quantity and climate and we will quote on specification.
