

MILITARY TENTS

Canvas Army Military Tent

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3053001	Military Tents	China, exported worldwide

Description

Canvas army military tent for field accommodation, command posts, stores and medical facilities, in treated canvas with poles or a frame for repeated field use.

Field tentage is judged on erection time, resistance to wind, and how well it survives being struck wet and stored. Treated canvas handles sun and heat better than coated synthetics over a long deployment and can be repaired rather than replaced, which is why it is still specified for extended field use. Ventilation arrangement matters as much as the fabric in hot climates. Contact EMC Machines Manufactures with the tent size, the climate it will be used in and your quantity for a quotation.

Technical specification

Standard: Military standard

Style: Pole style

Layer: Single layer

Capacity: 10-12 persons

cover material: Polyester waterproof canvas fabric,320GSM
