

GARAGE WASHING DRY AND CLEAN EQUIPMENTS

Car Washer Garage

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3061001	Garage Washing Dry and Clean Equipments	China, exported worldwide

Description

A car washer for garage use — a pressure washing unit for vehicle cleaning, in cold or hot water versions with the hose, lance and detergent arrangement a workshop needs.

Pressure and flow together decide how quickly a vehicle is cleaned, and flow is the figure buyers overlook: high pressure at low flow cuts through dirt in a small area slowly, while adequate flow rinses a panel. Hot water is worth the extra cost where oil and grease are the soil, as in a commercial vehicle or plant yard. Contact us with your vehicle throughput and whether hot water is required for a recommendation.

Technical specification

Operating Pressure	120/150 bar-1740/2175 psi
Delivery Rate	660 l/h-2.91 GPM
Absorbed Power	3000W
Voltage	230v~50Hz 1 ph
Motor Pump	MP3/1450 rpm
Water Inlet Temperature	40 Degree C
