

GARAGE DIAGNOSTICS EQUIPMENTS

Automobile Car Diagnostic Scanner

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3065001	Garage Diagnostics Equipments	China, exported worldwide

Description

An automobile car diagnostic scanner reading fault codes and live data from a vehicle's electronic control units, for engine, transmission, ABS, airbag and body systems.

The question to ask of any scanner is which vehicles and which systems it actually covers, because a cheap code reader will give you engine codes on common models and nothing more, while a professional tool reads the body and chassis modules, performs resets and adaptations, and is updated as new models appear. Subscription cost for those updates is part of the real price. Contact EMC Machines Manufactures with the makes you service and the functions you need.

Technical specification

Connection Type Wired
 Display Type Lcd
 Power (W) 50w
 Memory (MB) 4
 Technique Diagnostics
 Automation Grade Automatic
 Voltage (V) 12
 Color Black
 Size (cm) 30

Length 50 Inch
Power 9W
Relative Humidity Less than 90%

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
