

GARAGE AIR CONDITIONING EQUIPMENTS

Anest Iwata Reciprocating Air Compressor

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3066001	Garage Air Conditioning Equipments	China, exported worldwide

Description

An Anest Iwata reciprocating air compressor supplying compressed air for spray painting, air tools, tyre work and general garage service, in the piston compressor format.

In a body shop the compressor specification is set by the spray gun, not by the air tools, because spray work needs a continuous, clean, dry air supply and a compressor sized only for intermittent tool use will not hold pressure through a panel. Air treatment matters equally, since moisture or oil carried into the air line shows up as defects in the paint finish. Contact us with your spray gun air consumption and the number of air outlets and we will size the compressor and the treatment.

Technical specification

Air Tank Capacity (in L)	150 L
Compressor Type	Air Compressor
Installation/After Sales Service Required	Yes
Maximum Flow Rate (in cfm)	501 - 1000 cfm
Horse Power (HP)	15 HP
Speed	1455 rpm

Overall Size	L1900xW670xH1275 mm
Working Pressure	75-120 psi

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
