

COLD SEAFOOD DISPLAY FREEZER

Stainless Steel Open Fish and Seafood Display Refrigerator

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3075001	Cold Seafood Display Freezer	China, exported worldwide

Description

A stainless steel open fish and seafood display refrigerator presenting fresh fish on ice or on a chilled deck, in stainless steel construction suited to a wet counter and frequent washdown.

Fresh fish display is a presentation problem with a hygiene constraint. Stainless steel is specified because the counter is washed down throughout the day and anything else corrodes or holds odour. Drainage is the detail that separates a good cabinet from a poor one, since melting ice has to go somewhere and a cabinet that pools water will smell within a week. Contact us with your counter length and whether you display on ice or on a chilled deck.

Technical specification

Imported famous compressor Accurate refrigeration.

Multiply adjustable shelves full fill different merchandising request

Digital temperature controller ensure better temperature control and saving energy

Fully spread static flow, Better refrigeration effect no pollution

Flake Ice Fish Display
