

COLD CAKE DISPLAY SHOWCASE

Straight Glass Cake Display Freezer Showcase Cabinet

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3077001	Cold Cake Display Showcase	China, exported worldwide

Description

A straight glass cake display freezer showcase cabinet for presenting cakes, pastries and desserts chilled behind straight glass, in the format used by patisseries, bakery counters and hotel buffets.

A cake cabinet has to do two things that pull against each other: hold the product at the right temperature and show it off. Straight glass gives a cleaner sight line than curved glass and is easier to keep clean, which matters on a counter the customer stands at. The detail worth checking is humidity control, since a cabinet that runs too dry will crust buttercream and dull a glaze within hours. Contact EMC Machines Manufactures with your shelf requirement and counter space for a recommendation.

Technical specification
