

COLD WORKBENCH CHILLER

Workbench Refrigerator

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3081001	Cold Workbench Chiller	China, exported worldwide

Description

A workbench refrigerator — an under-counter refrigerated cabinet with a worktop surface, giving chilled storage directly at the preparation position in a commercial kitchen.

The value of a workbench unit is in the steps it saves. Ingredients are to hand under the board instead of across the kitchen, which during service is the difference between keeping up and falling behind. The worktop has to be specified for the work done on it, and the refrigeration has to cope with a hot kitchen and constant door openings. Saladette versions take gastronorm pans in the top. Contact EMC Machines Manufactures with your bench length and pan requirement.

Technical specification

Imported famous compressor or, Accurate refrigeration.
Multiply adjustable shelves full fill different merchandising request
Digital temperature controller ensure better temperature control and saving energy
Fully spread air flow,Better refrigeration effect no pollution
Thicker SS material keep long service time
