

BULLDOZER

180HP Forestry Bulldozers

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3086001	Bulldozer	China, exported worldwide

Description

180HP forestry bulldozers — a crawler dozer at 180 horsepower specified for forestry work, with the guarding, sweeps and screens that protect machine and operator from falling timber and debris.

Forestry specification is not a trim level, it is a different machine. Falling object protection over the cab, a sealed and guarded underside, and radiator and cylinder protection are what keep a dozer working in standing timber rather than in the workshop. At 180 HP it sits in the mid range, suited to land clearing, access tracks and skidding rather than large-scale earthmoving. Contact us with your application and ground conditions for a specification.

Technical specification

Driving Type: mechanical driven

Bulldozer Type: forestry

Blade Capacity: 4.5 m3

Engine Power: 180 HP

Operating Weight: 17900 kgs
