

## WHEEL LOADER

# 5 Ton Wheel Loaders

| PRODUCT CODE         | CATEGORY     | ORIGIN                    |
|----------------------|--------------|---------------------------|
| EQMH-CHINA-MY3087001 | Wheel Loader | China, exported worldwide |

## Description

5 ton wheel loaders — a wheeled loading shovel in the 5 tonne class for loading trucks, stockpile handling, quarry and aggregate work and general site duty.

Loader sizing is governed by what it loads into. Bucket capacity should fill the haul truck in a sensible number of passes, usually three to five, and a loader too small for the trucks becomes the bottleneck for the whole operation. Tyre specification matters more than buyers expect, since quarry work destroys standard tyres. Quick couplers widen the machine's usefulness considerably. Contact EMC Machines Manufactures with your material density and truck capacity for a recommendation.

## Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
