

MOTOR GRADER

220HP Motor Graders

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3089001	Motor Grader	China, exported worldwide

Description

220HP motor graders — a motor grader at 220 horsepower for road formation, grading, levelling, ditch cutting and haul road maintenance.

A grader's real work is fine blade control, and the operator does more for the finished surface than the horsepower does. The power rating matters for ripping and for working in hard material; blade width, moldboard control and the availability of a ripper or scarifier matter for everything else. At 220 HP this suits road construction and mine haul road maintenance rather than light levelling. Contact us with your application and whether you need a ripper fitted for a specification.

Technical specification

Operation Weight: 16900 kgs
Engine Model: Dongfeng-Cummins diesel engine
Engine Power: 158 kw
Standard: CE

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
