

MINING DUMP TRUCK

90 Ton Mining Tippers

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3092001	Mining Dump Truck	China, exported worldwide

Description

90 ton mining tippers — a rigid-frame mining dump truck in the 90 tonne payload class, for haulage in open-pit mines, large quarries and major earthworks.

Haul truck selection is a matching exercise with the loading equipment, because a truck that takes four or five passes of the excavator bucket to fill is efficient while one that takes seven is not, and one filled in two passes wastes excavator capacity. Haul road design, gradient and cycle time then determine the number of trucks required. Contact EMC Machines Manufactures with your loading equipment, haul profile and target tonnage per hour and we will advise on fleet sizing.

Technical specification

Operation Weight: 90000 kgs
Engine Power: 420 HP
