

MUNICIPAL AND SPECIAL VEHICLE

18m3 Garbage Compactor Trucks

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3097001	Municipal and Special Vehicle	China, exported worldwide

Description

18m3 garbage compactor trucks — a municipal refuse collection vehicle with an 18 cubic metre compacting body, compressing collected waste so each trip carries more and fewer trips are needed. Body volume and compaction ratio together determine how many collection rounds a vehicle completes before it has to run to the tip, and that is the figure that governs the size of fleet a municipality needs. The loading arrangement, whether rear, side or container lift, should match the bins actually in use in your area, which is a detail that is easy to get wrong on a tender. Contact EMC Machines Manufactures with your bin type and round size.

Technical specification

Rated Loading: 11000 kgs
Tank Capacity: 18-20 M3
Engine Power: 155 kw

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
