

GARBAGE E-LOADER

Electric Three Wheeler

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3112001	Garbage E-Loader	China, exported worldwide

Description

An electric three wheeler configured as a garbage e-loader, with a tipping body for household and street waste collection in lanes and areas a compactor truck cannot enter.

Narrow-lane collection is where municipal waste services usually break down, and a small electric tipper is the practical answer: it reaches the lanes, it tips into a transfer station or a larger vehicle, and it runs quietly early in the morning without waking a street. Battery capacity should be specified against a full round rather than an average, with a margin for the hills on the route. Contact EMC Machines Manufactures with your round length and load for a recommendation.

Technical specification

Dimension: 3300*1100*1800mm
 Carriage: Type electric
 Power: 1200w
 Wheelbase: 2000mm
 Max.Speed: 35km/h
 Loading Capacity : 500kg
 Brake: four brake
