

**Product Name :**  
Pasta Food Making Machine

**Product Code :**  
EQMH-CHINA-MY3004003

**Description :**

Pasta Food Making Machine

**Technical Specification :**

This Production line adopts starch , corn powder , potato powder as their raw materials to produce a variety of popular snacks through extrusion, cutting, frying and flavoring .These Products can be made in different shapes such as shell, screw, square tube, round tube by changing the dies or cutters. The whole production line is highly automative and controllable .We can configure the machines as your need or request.

Spaghetti Macaroni Making processing Production Line Pasta Machine absorbing the advanced foreign technology based on research and development performance and technical quality indexes reach the international advanced level of the similar equipment.

This production line from the raw material ingredients ,raw material,conveying,extrusion,baking until a complete product.Can produce all types of pasta,macaroni food.

**Power**  
80KW  
100KW

**Output**  
100-150kg/h  
150-200kg/h
