

**Product Name :**  
Macaroni Making Machinery

**Product Code :**  
EQMH-CHINA-MY3004006

**Description :**

Macaroni Making Machinery

**Technical Specification :**

Automatic industrial pasta macaroni making machine is absorbing the advanced foreign technology based on research and development performance and technical quality indexes reach the international advanced level of the similar equipment.

This production line from the raw material ingredients ,raw material,conveying,extrusion, baking until a complete product. Can produce all types of pasta,spaghetti food.

Visible auto-temperature makes temperature controlling to be easier and more precise

The machines are made by steel. The screw is made by alloy steel and special craft, so the screw life is longer.

What's more, the screw is the structure of building block system, may combine willfully.

It's very popular food and many people like to eat the food because it not only tastes delicious but also it's very convenient and suitable to the step of the time.

Our mechanic will go to your country to teach your worker to operate the processing line until they can handle well.

Install Power	110KW	180KW
Consumption Power	77KW	126KW
Output	120-150KG/H	220-250KG/H
