

TEA BAG MACHINE

Tea Bag Packing Machine

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3149001	Tea Bag Machine	China, exported worldwide

Description

A tea bag packing machine forming, filling and sealing tea bags from filter paper, with tag and thread attachment and outer envelope options, for tea, herbal infusions and ground coffee bags.

Dosing accuracy is where this machine is judged, because the weight in a tea bag is small and a consistent one-gram dose is harder than it sounds with a light, bulky, variable material. Filter paper quality and the seal across it determine whether bags burst in the box or in the cup. Tagged, untagged, single and double chamber formats are different configurations. Contact us with your bag format, dose weight and required output.

Technical specification

The machine is a new type of heat-sealed, multi-functional automatic tea bag packaging equipment. The main features of the machine is a forming inside and outside the bag, to avoid the direct contact with the staff and improve efficiency. Inside the bag for the filter cotton paper, can be automatically with a label, the outer bag for the composite paper. The biggest advantage is that: labeling and outer bags can be used photoelectric positioning, packaging capacity, inner bags, bags, labels, etc. can be adjusted, according to the different needs of users to adjust the size of the inside and outside the bag in order to achieve the best Packaging effect, improve product appearance grade, so that product value.

Packing Range: 1-8g/ pouch

Packing Speed: 30 ? 60 bag/min
Roll outer diameter: £Φ350mm
Roll inner diameter: Φ76mm
Air pressure: ≥ 0.6Mpa
Power Supply: 1.4Kw?220V?
Machine Dimension: L830×W660×H1522?mm

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
