

FOOD FORMING LINE MACHINES

Meat Automatic Burger Press Machine

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3151001	Food Forming Line Machines	China, exported worldwide

Description

A meat automatic burger press machine forming minced meat into patties of controlled weight and diameter, continuously, with interleaving paper where the patties are to be stacked or frozen.

Patty weight consistency is what the machine is really for, since a patty over its declared weight gives product away on every unit and one under it is a labelling problem. Forming pressure is the other control, because a patty pressed too firmly eats dense and tough while one pressed too loosely falls apart on the grill. Contact us with your patty weight, diameter and required output for a recommendation.

Technical specification

Capacity: 2200 pieces/h or 4400pieces/h

Volume of feed bin: 32L

Power: 0.92kw

The electricity: 380V/50Hz,3P,415v/220v,3p

thickness of product: 6-15mm

maximum diameter: 150mm(for round burger)

Overall dimension: 1560×670×1530mm
