

ASEPTIC CARTON FILLING MACHINE

Aseptic High Speed Straw Applicator

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3152001	Aseptic Carton Filling Machine	China, exported worldwide

Description

An aseptic high speed straw applicator attaching drinking straws to filled aseptic cartons at line speed, downstream of the filler and before case packing.

The straw applicator is a small machine that stops a whole line when it misfeeds, which is why its reliability matters out of proportion to its cost. Straw type, wrapping and attachment position all have to match the carton and the glue system, and a change in straw supplier is a common cause of trouble. Speed is specified to the filler it follows. Contact EMC Machines Manufactures with your carton format and filler speed for a specification.

Technical specification

Overall dimension: 3500x860x1500
Machine weight: 300kg
Horse power: 4.5KW max.
Application capacity: 12000 - 16000packs/h
Feed pattern: single file
Width of carrying belt: B55
Application air pressure: 0.4-0.6Mpa
Working pressure of the hot melt adhesive pump: 0.28Mpa
Max. air consumption: 100L/min
