

LABELING PACKING MACHINES

Packing Bottle Liquid Filling Machine

PRODUCT CODE	CATEGORY	ORIGIN
EQMH-CHINA-MY3163001	Labeling Packing Machines	China, exported worldwide

Description

A packing bottle liquid filling machine filling bottles with liquid product to a set volume or weight, with options for capping and labelling in line, for water, beverages, sauces, oils and chemicals.

Filling method is chosen from the liquid. Thin free-flowing liquids such as water suit gravity or overflow filling, viscous products such as sauce and honey need a piston filler, and foaming products need bottom-up filling to avoid filling the bottle with foam. Getting that wrong is the usual cause of a filler that will not reach its rated speed. Contact EMC Machines Manufactures with your product viscosity, bottle size and target speed for a recommendation.

Technical specification

Machine Type: Automatic, Semi-Automatic
Output: 2400 to 6000, 3600 to 9000, 5000 to 12000
Direction of Movement: Left to Right
Number of Head Syringe: 4 Nos, 6 Nos, 8 Nos
Fill Size: 5 ml to 1000 ml
Electrical Specs Main Machines: 1 HP / 415 Volts / 50 Hz, 1.5 HP / 415 Volts / 50 Hz.
Electrical Specs Main Machines Conveyor: 0.5 HP / 415 Volts / 50Hz
Height of Conveyor: 860-910 (mm) Adjustable
Change Parts Required:

Syringes

Nozzle

Inlet & Outlet Hose Pipe

This versatile unit is suitable for filling various viscosity liquid in to the container.

Request a quotation

Send your capacity, voltage and destination port and we will reply with drawings, a price and a lead time within one working day.
