

Product Name :
Couscous Food Production Line

Product Code :
EQMH-CHINA-MY3004009

Description :

Couscous Food Production Line

Technical Specification :

Commercial Golden Couscous Food Machine Equipment, it adopts the technology of occident equipments. It have full-automatic and semi-automatic commercial pasta making machines.

Original : wheat flour potato starch, corn starch, cassava starch, , etc.

It can process various materials, widely applied in many industries: macaroni/ pasta baby rice powder, sesame paste, and nut paste food etc.

we can provide special design according to clients requirements.

Inverter control,good stability,centralized control,easy operation , large output and short time,save cost etc.

Power

130kw

230kw

Capacity

100-120kg/h

250-300kg/h
