

Product Name :
Macaroni Making Machine

Product Code :
EQMH-CHINA-MY3004012

Description :

Macaroni Making Machine

Technical Specification :

Voltage: 380V 50Hz (Changeable)

Product Name: Pasta Macaroni Making Machine

Advantage: Easy Operation High Efficiency

Feature: The Product Has Make Various Shape

Price industrial pasta making machine consist of feeding system,extruding system,cutting system,heating system,transporting system,and cooling system,which adopts advanced spiral rod technology. It uses low temperature to make materials ripe and shape once time.

Price industrial pasta making machine adopt frequency speed controlling system and a complete set of automatically controlling system ensure stability of process. The products vary with color and look beautiful and natural. You can use various material,but need match with cooling tower.

Installed power	Real power	Output
90kw	80kw	80-100kg/h
100kw	90kw	150-200kg/h
150	120KW	200-300kg/h
