

Product Name :
Soya Nuggets Machine

Product Code :
EQMH-CHINA-MY3005003

Description :

Soya Nuggets Machine

Technical Specification :

The Soya Nuggets Machine is an advanced extrusion system designed to produce high-protein, textured soy nuggets-a popular meat alternative in vegetarian and vegan diets. This technology transforms defatted soy flour into fibrous, chewable nuggets with customizable size, texture, and nutritional profiles, meeting global demand for sustainable protein sources.

Installed Power	Consumption	Output
	90Kw	65Kw/h
120Kw	95Kw/h	400-500Kg/h
120Kw	95Kw/h	400-500Kg/h
