

Product Name :
TVP Food Machine

Product Code :
EQMH-CHINA-MY3005005

Description :

TVP Food Machine

Technical Specification :

Lead Time: 15-25 days

Materials: stainless steel 304

Voltage: Customized, 110v-440v,50-60hz.

Core Components Brand: Siemens,Delta, Schneider, Baltur

Shipping: Support to sea freight, land and air freight

Soya Nuggets Making Machinery(TVP MACHINE) is the new extruder we specially designed for plant protein extrusion.

It processes low temperature soya meal and peanut meal to meat-like food, it can add into ham, sausage, can food, fast food and deepfreeze food for more taste.

Soya Nuggets TVP MACHINE Main Features?

Imported bearing group with higher bearing capacity

Equip with water injecting device on barrel to meet require of various raw material and quality.

High-speed tool steel with hardness HRC?62 to ensure a longer service life.

Modular combination of screws at will to meet require of different raw material.

Suspension type rotary cutter with bearing adjusting device to ensure quick,safe and accurate

All barrels inlaid alloy sleeve, easy to replace and extend the life span of screw.

All barrels inlaid cooling water through, spread around alloy sleeve, and can accurate constant temperature required.

Screws diameter: 65mm Screws length: 1280mm
Barrel material: 45Steel Die material: 45Steel
Heating power: 8kw Gear case cooling oil system: yes

Capacity(kg/h)	Installed Power(kw)	Actual Power(kw)
200-600	54	40-45
450-600	110	80-90
