

Product Name :
Soya Chunks Machines

Product Code :
EQMH-CHINA-MY3005009

Description :

Soya Chunks Machines

Technical Specification :

Hot Sale Textured Soy Chunks Soya Protein Extruder Manufacturing Machine Plant is designed and produced with rich experiences on food extruder industry over 10 years. it adopts nonfat low temperature soy bean meal as main raw material to produce all kinds of textured protein food, which is nutritional and easily absorbed by human body.

Such soy meat food looks like real muscle meat and mastication.

Textured soy meat food is widely applied to many industries, such as can food, seasoning food, ham,cooking,etc. which can be replacement of real meat.

Direct transmission between motor and gear box,reducing energy consumption.

Feeding, main driving device, and rotary cutting device adopt inverters to adjust the speed with more powerful drive, stable running, and low consumption.

Screw is made of durable alloy steel. Segmental assembled screws are applied to more kinds of materials and products.

Automatic lubrication system slows down power consumption and prolong the usage life.

Double screws feed equal materials forcibly.

Hanging molds(dies) and knives seat and bearing knife adjusting system can adjust the knife exactly and swiftly.

Install Power	Real Power	Capacity
110kw	77KW	250KG/H
135kw	95KW	300KG/H
210kw	147KW	600KG/H
